

Experience the intimate side of luxury

Announcing the birth of Corotú Spa: a haven of tranquility and inner peace.

Set within Bristol Buenaventura, a luxury oceanfront destination resort nestled between 1,000 acres of rivers, lakes, lush vegetation, and pristine beaches. A harmonious blend of color, aroma, texture, and sound, we present you with a sanctuary dedicated to the mind, body and spirit.

Relax, replenish or renew with a simple treatment or immerse yourself in an extravagant journey. Inspired by indigenous elements rich in energy and ancient traditions from local cultures, Corotú Spa embraces Panama's bountiful surroundings with its exclusive signature treatments.

Buenaventura Holistic Rituals

Magnetism, 75 minutes – This signature body polish first energizes and exfoliates with our unique Buenaventura, iron-rich volcanic sand carried down to the ocean by the Rio Hato. Clay, rich in minerals from the thermal springs of the Anton Valley, is then applied to revive the skin. The renewal process culminates with the application of a hydrating cream followed by an uplifting facial massage utilizing semi-precious gem stones.

Pixbae Wrap, 60 minutes – Indigenous herbs and palm fruit (Pixbae) embody this therapeutic treatment. Begin with a customized massage using organic oils and a selection of rich scrubs gently restores the skin's vitality. The Pixbae is applied to the skin followed by a banana leaf wrap to capture its nourishing moisture. The ritual is concluded with a vigorous foot massage.

Coclé Facial, 45 minutes – A tailored experience utilizing natural healing agents in ingredients indigenous to the region such as coffee, native herbs, honey and seasonal fruits. The natural attributes of each ingredient serves to clean, tone, relax and moisturize the skin.

Buenaventura Body, 60 or 90 minutes – From the hands and heart of Buenaventura, using an exotic blend of tropical essential oils, your therapist will skillfully and intuitively apply a firm, nurturing touch with a variety of bodywork techniques to alleviate tension and tightness in your muscles.
